ANNEX 1: GLOSSARY OF TERMS

Gross International Reserves (GIR).- Central Bank's GIR¹ are composed mainly of deposits in foreign banks, foreign securities and bonds, gold holdings and any other internationally recognized means of payments such as coins and bills. It also includes subscriptions to international organizations, and the credit balance from the financial agreement signed with other Latin-American central banks as part of the Asociación Latinoamericana de Integración, ALADI².

Net International Position.- Central Bank's Net International Position is the difference of assets and liabilities in foreign exchange, both internationally and with residents. These assets could be diversified by currencies and gold.

Liquid International Assets.- Assets which can be easily negotiated in the international financial markets. They are the result of excluding from the GIR subscriptions of capital to international financial organizations, such as Fondo Latinoamericano de Reservas (FLAR) and Bank for International Settlements (BIS), IMF's Reserve Tranche Position and fiduciary funds, credit balances from ALADI, and holdings of gold in Central Bank of Peru's vaults.

¹ The concept used by the Central Bank is consistent with the paragraph 424 of the Manual of the Balance of Payments, IMF, 5th Edition.
