

*The Central Bank of Peru (BCRP) and The Journal of Financial Market Infrastructures (JFMI)* invites submissions for its Annual Research Conference, to be held on July 20-21, 2026, in Lima.

The conference will bring together policymakers, academics, and market experts to discuss emerging challenges and opportunities in monetary and macroeconomic issues in a digital era. Submissions in the form of technical papers and policy-oriented papers on the following themes will be particularly welcome:

- Payment and settlement systems
- Digital money and central bank operations
- Stablecoins and Tokenized Deposits
- Network analysis of FMIs in a digital era
- Non-bank payment service providers and access to central bank payment rails
- New technologies for FMIs, including distributed ledger technologies (DLTs), machine learning (ML) and artificial intelligence (AI)

Submissions should be sent to

<https://cmt3.research.microsoft.com/EEBCRP2026> by May 25, 2026. Decisions will be mailed by June 12, 2026. **Selected papers from the conference addressing these themes will be published in a special issue of JFMI.**
