Net International Reserves at US\$ 9 306 million

As of April 23, the net international reserves (NIR) of the Central Reserve Bank of Peru amounted to US\$ 9 306 million, up US\$ 520 million from end-March due to higher financial system deposits (US\$ 489 million), purchases of foreign currency (US\$ 82 million), investment yields and other operations (US\$ 15 million) and higher Insurance Deposit Fund deposits (US\$ 4 million), which were partially offset by the withdrawal of public sector deposits (US\$ 70 million). On the other hand, the net international position amounted to US\$ 3 107 million, up US\$ 87 million from end-March.

Over the same period, the Central Bank made purchases of foreign currency, totalling US\$ 18 million. It should be noted that these purchases are oriented to reduce excessive and transitory volatility in the exchange market. Over the last 2 month, it has recorded the non-renewal of the redemption of several forward operations, which were contracted in the weeks previous to the electoral process (as a coverage due to the political uncertainty).
