# resumen informativo

## Exchange rate: US dollar traded at S/. 2.988

**Between June 9 and 16, 2009**, the average interbank ask price of the dollar rose from S/. 2.982 to S/. 2.988, which represented a depreciation of the nuevo sol of 0.22 percent. The BCRP has not intervened in the exchange market since May 8.

**Between June 9 and 16, 2009**, banks' balance of net forward purchases of foreign currency increased by US\$ 80.7 million. So far this month, the balance of net forward purchases has accumulated an increase of US\$ 284.5 million.

## GDP decreased 2.0 percent in April

In April, the GDP recorded a decrease of **2.0 percent**. This result is explained by the fewer working days that occurred in this month for the Easter holidays which this year was in April when last year was on March.

The sectors which explained the fall in April were non-primary manufacturing, with a contraction of 14.1 percent and construction (-1.0 percent), which were partly offset by positive results in mining (2.8 percent) and agriculture (0.7 percent).

1/ Includes import rights and other taxes to the products.

In April, the **agriculture and livestock sector** recorded a slight **growth of 0.7 percent**, with a differential behavior within the agricultural sector. Oriented production to the domestic market grew 8.8 percent highlighting the increased production of rice –instead of cotton– and bananas and cassava crops –recovered after that were affected by the rains in the last year–. Foreign Market-oriented production and agro-industrial contracted 21.4 percent, showing the drop in the production cycle of the olive and coffee after an upswing in 2008, lower harvests of grapes. Besides, the livestock production continued to reflect the increased production of poultry meat (5.0 percent). During January to April, the agriculture and livestock sector has accumulated a growth of 2.8 percent, with rates of 1.1 percent to agricultural sector and 5.5 percent to livestock.

The **fishing sector** registered a **fall of 24.2 percent** following the process of rationalization in the fishing of anchovy after new regulations for individual fishing quota, as well as lower activity for frozen (giant squid) and fresh (mackerel and bonito). So far this year the sector accumulated a drop of 21.2 percent.

The **mining and hydrocarbons sector rose 2.8 percent**, higher production of gold and silver, mostly in the Yanacocha and Ares mines, respectively; as well as increased production of crude oil, before the entry into operation of lot 56. This brings the cumulative growth of this sector in January-April period stood at 3.5 percent.

The output of the **manufacturing processing of raw materials decreased 11.3 percent**, mainly due to the decreased activity of the fishing industry and the refining of non-ferrous metals, partially offset by higher refining and oil and higher production of meat products and sugar. The **non-primary manufacturing fell 14.1 percent**, due to the base effect of Easter in 2008 was recorded in March and in April this year, so for this past month had two days less of production .

In April, the construction sector contracted 1.5 percent. This, similarly to the manufacturing process reflects the economic slowdown as well as a base effect due to growth in 2008 was remarkably high (34.4 percent), as well as 2 days less of production in the month due to Easter.

## Indicators for May 2008

Preliminary data available to date of indicators on the sectors of fishing, mining and hydrocarbons, construction, electricity and water, relevant for economic activity include the following:

- According to IMARPE, anchovy catch amounted to 1,832.0 thousand tons, an increase of 127.3 percent respect to the same month of 2008, accumulated volume of 2,791.5 thousand tons - an annual target of 5,500 thousand tons per year.
- According to the Ministry of Energy and Mining, the production liquids hydrocarbons and natural gas grew 31.0 percent and 11.5 percent, respectively.
- According to ASOCEM, local dispatches of cement decreased 1.1 percent from 539.3 to 533.3 thousand tons between May 2008 and May 2009.
- According to the Comité de Operación Económica del Sistema Interconectado Nacional (COES), the production of electricity grew 1.9 percent.

## Internacional markets

### Country risk at 258 basis points

Between June 9 and 16, the country risk indicator –measured by the **EMBIG** Peru spread– rise from 235 to 258 basis points. A similar was seen in the region's spread, which increased 21 basis points.

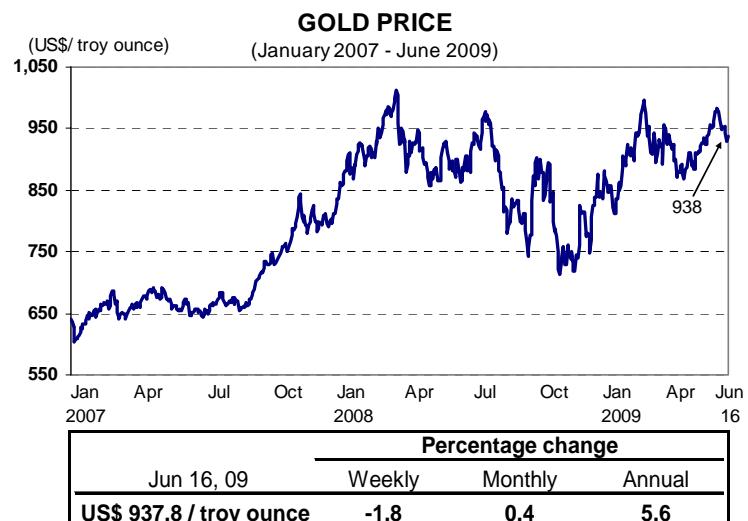

The spreads for emerging debt increased due the risk aversion of agents, after the dissemination of unfavorable indicators of activity in the US and the Eurozone.

## Price of gold dropped to US\$ 937.8 a troy ounce

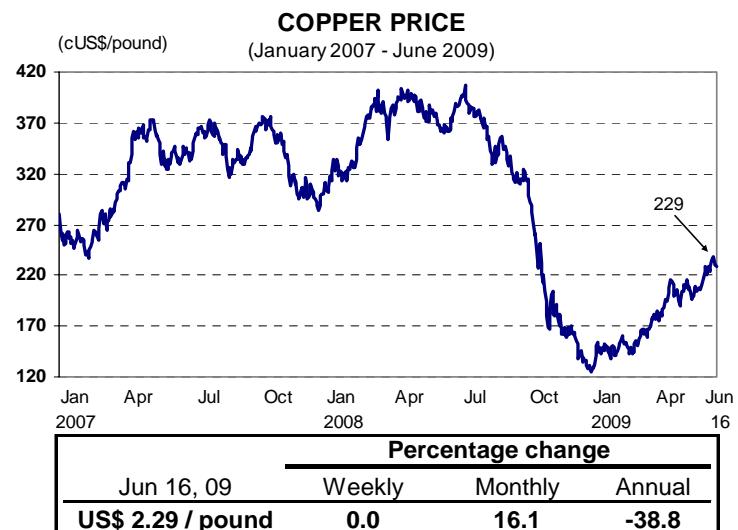

Between June 9 and 16, the price of **gold** dropped 1.8 percent to US\$ 937.8 a troy ounce.

The **gold** price continued to decline during this week due to the strengthening of the dollar against the euro, although the increase in oil prices pushed towards an increased demand for precious metal as a hedge against inflation.

In the same period of analysis, the price of **copper** remained at US\$ 2.29 a pound, showing some volatility during the week.

The lower inventories in the London Metal Exchange and persistent fears about the economy and demand for industrial metals have compensatory effects in the evolution of the price of the basic metal.

Between June 9 and 16, the price of **zinc** fell 0.2 percent to US\$ 0.71 a pound.

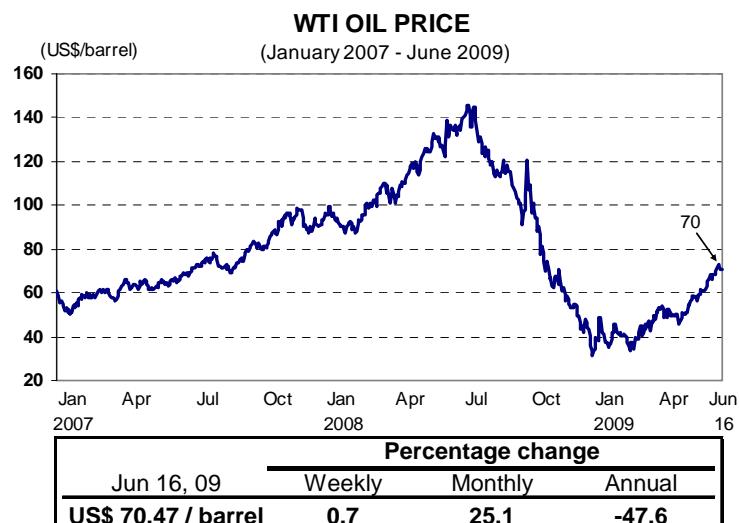

The price of zinc fell by the largest inventories in London Metal Exchange by 2.4 percent to 335 thousand MT and by persistent fears about the performance of the economy and demand of the basic metals.

# resumen informativo

The price of the barrel of **WTI oil** rose 0.7 percent between June 9 and 16, and reached US\$ 70.5 the barrel.

The upward revision in the forecast on oil demand by the Energy Information Administration and geopolitical troubles in Nigeria (attacks Chevron) and Iran (after elections riots), contributed to this price rise. Moreover, OPEC noted that only increase its production if the oil price exceeds US\$ 75-80 range.

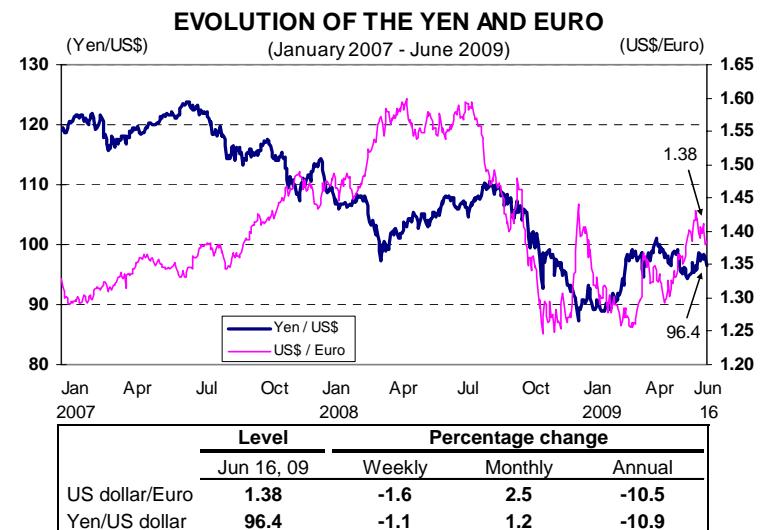

## Dollar appreciated against the euro

Between June 9 and 16, the **dollar** appreciated 1.6 percent against the **euro**.

The positive evolution of the dollar was explained by higher risk aversion and comments of some significant economies, which increased the demand for the dollar as a hedge asset.

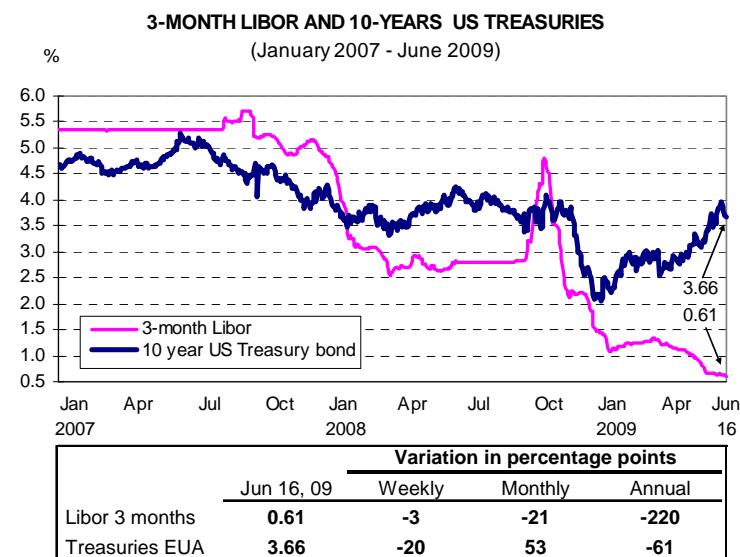

The dollar depreciated 1.1 percent against the **yen**.

## Yield on 10-year US Treasuries decreased to 3.66 percent

Between June 9 and 16, the **3-month Libor** fell from 0.65 to 0.61 percent, and the yield on the **10-year Treasury bond** decreased from 3.86 to 3.66 percent.

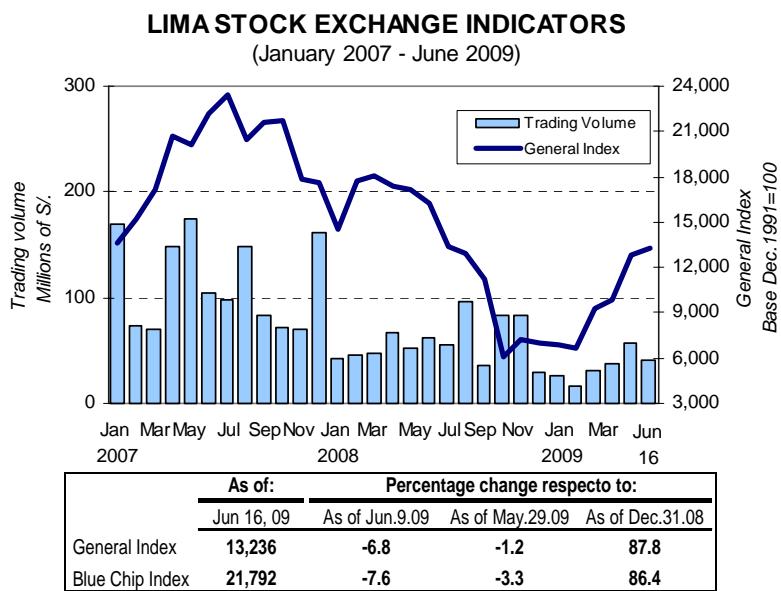

The unfavorable economic activity indicators in United States raised the risk aversion, which was reflected in increased demand for Treasury securities and the subsequent decline in yields for these long-term bonds.

## Lima Stock Exchange fell 1.2 percent at May 16

As of **January 16**, the **General** and **Blue Chip** indices of the Lima Stock Exchange (LSE) have fallen 1.2 percent and 3.3 percent, respectively.

During the week of analysis (June 9 to 16), both the General index and the Blue Chip index showed losses of 6.8 and 7.6 percent, respectively. This is explained by the reduction in the mainly international prices of basic metals and in line with the negative evolution of markets in the region.

Year-to-date, these indices have accumulate gains of 87.8 and 86.4 percent, respectively
