In April, the **agriculture and livestock** sector grew 2.6 percent, accumulating a 2.8 percent expansion in the first four months of the year. This month result is explained by the growth of crops oriented to the domestic market as well as agribusiness and for the foreign market, highlighting in the first case, higher volumes of rice (11.3 percent) and potatoes (3.5 percent), and in the second coffee (13.3 percent), cotton (105.7 percent) and grapes (23.6 percent).
